Run for ONE fleece.

There are 143 million orphans in the world today...
children living without the blessing of family we ourselves enjoy.

We're running in honor of Katya Toschakova, a young orphan who took her own life after leaving her orphanage without guidance or hope. She was just 15. Sadly, many orphans fall into crime, prostitution, drug abuse, alcoholism, or, like Katya, commit suicide. Children's HopeChest establishes programs for younger children living in orphanages—and older children who are navigating the critical transition into adulthood, giving them ongoing support, skills, and hope.

When you join Run for ONE you'll help stop this cycle, and instead put dreams back in a child's heart.

Join our team today.
